The Darwin Festival and Darwin Entertainment Centre present

Birdbrain

Australian Dance Theatre

Driven by dramatic visuals and pulsating rhythms, dancers literally take flight as they propel themselves through space in **BIRDBRAIN**.

In the Australian Dance Theatre's wry deconstruction of **SWAN LAKE**, classical ballet, gymnastics, breakdance and

astounding airborne athleticism inform the vigorous choreography of Artistic Director **GARRY STEWART**.

BIRDBRAIN has delighted audiences around Australia and the world with its combination of remarkably acrobatic choreography and perceptive references to **SWAN LAKE**.

"Take Swan Lake, one of the most famous ballets in the world, tear it apart at the seams and stuff it with raw rhythms, frenzied footwork and excessive energy and you get Birdbrain..."
BBC, 2003
